

Team Magnificent — Training Sources Harvested

Origin: harvested in Chat #129, committed to the repo in Chat #135 so it persists in the project rather than living in a single chat. This file is the canonical list of training-content sources for the **.team** Fast Start / training surfaces.

Build repo: `D:/momentum-creation-system-v1/` (`devklg/momentum-creation-system-v1`)

Training content repo: `D:/team-magnificent-training/` (publishes to `devklg.github.io/team-magnificent-training/`)

Latest handoff: Mongo `universal_gateway.session_handoffs` — read the collection directly, `$sort {created_at:-1} $limit 1` (per the handoff contract). As of Chat #135 the latest is `handoff_chat_134`. (The original #129 draft of this list named `handoff_chat_129b`; that was the latest at the time and is now stale — do not rely on it.)

1. Team Magnificent's own comp training — "Power in Numbers"

- **URL:** <https://devklg.github.io/team-magnificent-training/>
- This is **ours**, finished, in our voice, compliance-disclaimed. The authoritative comp-plan source for **Fast Start Modules 2–3**.
- Contains: 6 ways to get paid; cycle mechanic (300 lesser + 600 greater = 900 CV = \$35, up to 600 cycles/wk); Active (100 CV enroll + 60 CV/28-day SmartShip) and Qualified (1 BA left + 1 BA right) definitions; Power Leg vs Pay Leg; no-breakage; first-mover advantage; 14-level duplication table to 16,384; full product CV table.

2. Upline hub — rlegacymakers.com (Adrianne, six-figure earner)

- **Hub:** <https://www.rlegacymakers.com/>
- **Product overview:** <https://www.rlegacymakers.com/proactive-wellness-product-overview> (3 pillars Exploration / Curation / Absorption; PDR listing; absorption study 3–9.5×; full product line w/ benefits + fact-sheet links)
- **Getting-started checklist** (back-office setup steps + SmartShip explanation)
- Confirmed: **free to adapt** (upline is paid on our downline).
- NOTE (compliance): the upline's own materials contain specific weight-loss and income figures that OUR locked spec keeps off **.com** and confines to **.team** training. Adapt structure + warmth; do not carry their numeric claims across.

3. GLP-THREE Scientific Dossier (official THREE)

- **Dossier:** https://threemedia.earth/wp-content/uploads/2026/02/GLPTHREEScientificDossierIngredients_2602_v1_EN_FNL.pdf
- **Fact sheet:** https://threemedia.earth/wp-content/uploads/2026/01/2601_FactSheet-GLPTHREE_v1_ENG_FNL.pdf
- Key: MBC-267 (267 salmon + mushroom peptides) + saffron / ginseng / hops; patent-pending; PDR-listed; ingredient-level peer-reviewed GLP-1 support. (Kevin has the other 12 product fact sheets locally.)

4. Upline onboarding webinar transcript (Adrianne)

- The full live getting-started call. QBA path, 2-by-2 bonus, PIB tiers (\$25–\$250), placement mechanic, first-touch curiosity script, 120-names/numbers model.

5. Larry Thompson telecourse (foundational philosophy)

- **Location:** `D:/team-mag/larry-thompson/` (moved OUT of the public training repo — **keep private**).
 - 4-session telecourse, 33 tracks + transcripts. Source of **People** → **Momentum** → **Volume** → **Checks** and the DMO / law-of-averages discipline. Health/weight-product MLM — directly category-aligned.
 - Teach the principles **in our voice**; do **not** republish the transcripts.
-

Core training truths locked this session

- **Lead with the product video.** Product leads, opportunity follows.
- **"Get your two" = activation, NOT the income model.** Earn by building a team + driving volume. Make the exponential realizable — eat the elephant one bite at a time.
- **Comp / CV content is .team-only.** The app never computes CV (THREE tracks it).
